Signature of Company Official & Title

NOTICE: NRMCA's Plant Certification Program was designed for ready-mixed concrete facilities where concrete is manufactured and delivered to a job site in concrete delivery vehicles. A primary criterion for NRMCA's Certification is the requirement for a delivery ticketing system conforming with the mandatory reporting requirements of ASTM C94, Standard Specification for Ready Mixed Concrete. An alter certificate has been issued instead.

The checklist indicates only that plant facilities are satisfactory for the production of concrete when properly operated. Conformance of the concrete itself with specification requirements must be verified by usual inspection methods under sales agreements.

This certificate is issued by the National Ready Mixed Concrete Association on verification that the production facility conforms to the requirements of the NRMCA Certification of Ready Mixed Concrete Production Facilities, QC3. Unauthorized reproduction or misuse of this certificate may result in legal action.

Plant ID #: 862877

Certification ID #: 32940
